

COVID-19**AFTER YOUR SCREENING TEST...****If you have SYMPTOMS or have had SYMPTOMS within the last 10 days**

Go straight home. All the people who live with you must also isolate themselves while waiting for your test results.

If you DO NOT have SYMPTOMS

You do not have to isolate yourself **unless** you have been **in contact with someone with COVID-19 or you are returning from a trip**: go straight home and comply with the isolation guidelines. The people who live with you do not need to isolate themselves.

While waiting for results

Usually, you will receive a response by telephone, e-mail or text message (you will be offered the choice at the time of testing depending on your situation) within **24 to 48 hours** of the test. If you do not hear from us after 72 hours, please write to resultats.covid19.ciussse-chus@ssss.gouv.qc.ca.

Announcement of the Results**— Négatif**

A negative result could be given on the **telephone** or by **e-mail** or by **text message**.

In some cases, you will still be called to reassess your situation.

Even if your test results are negative, you must click the link in the text message or e-mail you receive. They contain important instructions that must be followed!

Check the **junk-mail** folder in your mailbox.

+ Positif

Positive results are always announced over the **telephone**.

Answer your calls even if your caller ID indicates a private number, an unknown number, or something else. Public Health might be trying to reach you. If you don't answer, we will leave a message for you to call us back.

If you have any questions about the virus or the situation in our region, visit santeestrie.qc.ca/covid-19 or call **1 877 644-4545**.

Don't be left with a sense of helplessness in the face of the pandemic. Call **811** (Info-social, option 2) for referrals to professionals in psychosocial intervention or consult santeestrie.qc.ca/bien-etre.

Thank you for getting tested to protect yourself and others.
