## WHAT IS A SPECIAL CARE COUNSELLOR?

A behavioral technician working  
directly in the clients' environment.  
We focus on helping clients develop  
skills that will allow them to live a  
satisfying life regardless of their  
adjustments and challenges.

By students for  
future students.

Brochure created for a  
Group Dynamics  
project by students:

Amélie Fredette  
Riley Lavoie  
Marie-Michèle Arseneau

### WHAT IS SPECIAL ABOUT CHAMPLAIN COLLEGE

Since Champlain College is located on the Bishop's university campus, all students have full access without charge to the John H. Price sports and recreation center, as well as Bishop's classrooms, library, and laboratories.

You will also find various clubs and groups offered for students at Champlain, such as an environmental group (Green Champlain), sexual health group (SexED), a peer mentoring program (Sentinels), Champlain Pride Alliance and more !

## Some courses that you can expect

### Observation

Learning the art of observation, gathering information in order to develop proper intervention plans.

### Normal Development

The norms of human child development from newborn to adulthood. This covers the physical, cognitive, linguistic, and social age-related change.

### Mental Health and Substance Abuse

The study of mental health and the effects of substance abuse on one's mental and physical health.

### Helping Relationship

Learning to develop techniques to help clients explore their feelings and behaviors in order to create a therapeutic relationship.
