

# 700.B0 LIBERAL ARTS

*Histoire et Civilisation*

Liberal Arts is a community of students and teachers who:

- Study the history of our civilization from the Ancient Greeks to today;*
- Promote critical and creative thinking;*
- Value a historical approach that draws upon many areas of knowledge (literature, philosophy, art, religion, science);*
- Develop a rigorous approach to researching and writing;*
- Make connections between ideas, events, and historical figures in order to understand the roots of today's society.*

---

## DID YOU KNOW?

---

- Employers value the creativity, initiative, and critical thinking skills that a liberal arts education brings
  - Our Liberal Arts graduates have pursued careers in History, Education, Law, International Relations, Philosophy, and many more!

In Liberal Arts, we value social activities and hands-on learning!
