

SOCIAL SCIENCE

COMMERCE

This profile enables students to explore their interests and engage with problems related to the world of administration. The profile is organized to offer appropriate social science perspectives, while also providing university prerequisites for university-level business programs. Required courses include Microeconomics and Next Level Business, along with Differential Calculus and Linear Algebra and Vector Geometry.

Students have the option to take one introductory-level course in Ancient Civilizations, Political Science, Geography, or Sociology which will serve as a pre-requisite for the optional enrichment-level course in semester 4.

IS THIS PROGRAM FOR YOU?

- ✓ You like to discuss, debate, and express your opinions
- ✓ You want to think about solutions for the challenges facing humanity
- ✓ You like different perspectives and want to learn more about the disciplines of ancient civilizations, history, geography, economics, political science, psychology, and sociology
- ✓ You want to go to university
