

UNIVERSITY PATHS OPEN FOR YOU¹

¹ Document prepared by the Guidance Services of Champlain College Lennoxville, inspired by the chart developed by Cégep de Saint-Jérôme and the University Perspectives report from Cégep de Maisonneuve. The information contained in this document is not exhaustive and includes only specialized bachelor's degrees offered by universities in the province of Quebec. Please consult university websites to learn about all available options as well as the admission requirements.

| DOMAINS** | PROGRAMS | RELATED SUBJECTS |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| ANIMAL HEALTH & AGRICULTURE <ul style="list-style-type: none"> Animal and plants | Agricultural Economics / Agronomy / Forest Management and Environment / Chemistry of Natural Products / Agro-environment engineering / Biotechnological Engineering / Forest Engineering / Veterinary Medicine / Forestry Operations / Environmental Sciences | Chemistry Biology |
| HUMAN HEALTH <ul style="list-style-type: none"> Human health | Medical Biology / Chiropractic / Occupational therapy / Physical Activity and Kinesiology / Kinesiology (Applied to adapted physical activities) / Medicine / Dental medicine / Podiatric medicine Neuroscience (Department of Medicine) / Nutrition / Optometry / Pharmacy / Pharmacology / Physiology / Physiotherapy or Rehabilitation Science / Midwifery practice / Biopharmaceutical Sciences / Nursing Sciences | Chemistry Biology |
| ENVIRONMENT, ANALYSIS OF MATTER & EARTH SCIENCE <ul style="list-style-type: none"> Material Analyzed | Actuarial Science / Biochemistry / Bioinformatics / Biology / Chemistry / Pharmaceutical chemistry / Sustainable development of the territory / Economics and mathematics / Water engineering / Mathematics / Mathematics and Physics / Meteorology / Microbiology / Physics / Physics and Computer Science / Environmental public health and occupational safety / Statistics | Chemistry Biology Physics Mathematics Statistics |
| EDUCATION <ul style="list-style-type: none"> Education and Leisure Helping Relationship | Preschool and primary school teaching / Highschool Education / Teaching in school and social adaptation / Psychoeducation / Cognitive Neuroscience / Linguistic or Language Sciences / Physical Education | Any science courses |
| CONSTRUCTION & ARCHITECTURE <ul style="list-style-type: none"> Habitat Goods and materials | Geography and Regional Planning / Environmental Design / Landscape Architecture / Industrial Design / Interior Design / Sustainable Development of the land / Architecture / Urban Planning / Materials and Metallurgical Engineering / Electrical Engineering / Geological Engineering / Geology / Civil Engineering / Construction Engineering / Building Engineering / Geomatics | Physics Mathematics |
| MANAGEMENT & ECONOMICS ACTIVITIES <ul style="list-style-type: none"> Management | Human Resources Management / Industrial Relations / Marketing / Actuary science / Economics / Statistics / Accounting / Business Analytics / Business Technology Management / Management of Information Technology / Finance / Taxation / Business Administration / Entrepreneurship / Management / International Business / Logistic and operations management / Public Affairs and international relations / Tourism and Hospitality Management / Data Science and Business Intelligence Computing / Consumer Science | Administration Economics Politics Mathematics Psychology Statistics |
| COMPUTER SCIENCE & TECHNOLOGY <ul style="list-style-type: none"> Information Technology | Automated Production Engineering / Electromechanical Systems Engineering / Information technology / Electrical Engineering / Industrial engineering / Computer Engineering / Software engineering / Computer and electronic systems | Computer Programming Physics Mathematics |
| PRODUCTION & INNOVATION <ul style="list-style-type: none"> Goods and material Material Analyzed | Aerospace Engineering / Food engineering / Biomedical Engineering Chemical Engineering / Automated Production Engineering / Materials and Metallurgical Engineering / Mining and Mineral Processing Engineering / Electrical Engineering / Geological engineering / Industrial engineering / Mechanical Engineering / Physical Engineering / Food Science and Technology | Physics Chemistry Mathematics |
| DEFENDING & REENFORCING RIGHTS <ul style="list-style-type: none"> Law Management Human society Helping Relationship | Law / Public Affairs and international relations / Political Studies / Human Resources Management / Industrial Relations / Public Administration / Social Work / International Development / Security and Police Studies / Criminology | Economics Politics Psychology Biology Forensic Science Chemistry |
| LAND MANAGEMENT & CONSERVATION <ul style="list-style-type: none"> Habitat Human society | Geography and Regional Planning / Environmental Design / Landscape Architecture / Industrial Design / Interior Design / Sustainable Development of the Territory / Architecture / Urban Planning | Geography Drawing Physics Biology |
| SPORT, ANIMATION AND LEISURE <ul style="list-style-type: none"> Education and leisure Good and Services | Physical Activity and Kinesiology / Sport Studies / Outdoor Intervention / Leisure, Culture and Tourism / Physical Education / Tourism and Hospitality Management / Cultural Action | Physical Education Geography Psychology Biology |
| INTERNATIONAL STUDIES <ul style="list-style-type: none"> Human society Law | Law / Public Affairs and international relations / Political Studies / International Development / Economics / International Studies / Modern Languages / International Business / Tourism and Hospitality Management | Economics Philosophy Politics |
